RECONSTRUCTION: On 10/31/2022 between 1000 and 1430 hours, an unknown suspect(s), without permission, forcibly made entry into the residence through the back door of the residence. When inside the residence, the suspect(s), without permission, took custody of her deceased father`s Washington state identification card, his social security card, the decedent`s ashes, six SD cards, a necklace, hydrocodone prescription medication and the decedent`s medication identification card. After taking custody of the items, the suspects(s) then exited the residence, depriving the victim of their belongings. The suspect(s) then fled from the residence in an unknown direction, heading to an unknown location.

CRIME SCENE: The residence that is located at 6715 Hone St. New Port Richey, FL 34653. The residence is located on the west side of Hone St. and faces east. More specifically, the incident occurred throughout the entire inside and outside of the residence.

INTERVIEW 1 (Victim): I made contact with Melissa Davis, who provided me with the following statement: At approximately 1000 hours, she left the residence. When returning to the residence, she observed the back door to the residence was open, the gun case was open and on the bed in the master bedroom and that several drawers appeared to have been gone through and open. She made phone contact with her husband (Donavin Davis). Donavin came home to the residence, where he made contact with the Sheriff's Office.

Melissa stated that the items that were missing were her deceased father`s Washington state identification card, the decedent`s ashes, hid social security card, six SD cards, a necklace, hydrocodone prescription medication and the decedent`s medication identification card. The necklace was black and silver, rectangular. The necklace contained her father`s ashes. Each side of the necklace had a different phrase on it. The phrases were "You were Ready", "I wasn`t ready", "you`re wings will fly", and "I miss you grandpa". The necklace would cost approximately $250 to replace. The hydrocodone prescription medication was prescribed to her. There were approximately ten tablets left inside the bottle and were 10 mg tablets.

The suspect(s) took the SD card out of approximately six surveillance cameras and were unable to provide me with any video surveillance of the incident. The SD cards have a black bottom and a green top. They say 32 gigabits in blue writing and are OON Walmart brand. The SD card would cost approximately a total of $160 to replace.

The defendant`s ashes are in a clear plastic bag that has a silver zip-tie and a metal ring that included the defendant`s death date on it.

She was going to provide me with the defendant`s identification and his medical identification card by submitting them to Evidence.com

The suspect broke the gun case, causing it not able to be secured when closed. The estimated cost to replace the case would be approximately $350.

The total cost of all items to be replaced is approximately $580.

INTERVIEW 2 (Reporting Person): I made contact with Donavin Davis, who provided me with the following statement: While he was at work, he received a phone call from Melissa stating that someone broke into the residence

and stole several items. He drove home to the residence, where he made phone contact with the Sheriff's Office.

He believes that Kristine Davis, Jennifer Brophy, and Detective Sekeres were possibly involved with this incident. He believes that Detective Sekeres was not directly involved with this incident, but he knows that the incident occurred. He believes this because he claims Detective Sekeres falsely arrested Melissa, and when the case went to court Detective Sekeres admitted to falsely arresting Melissa. He also believes that Jennifer and Kristine were involved with this incident because they are currently going through a custody battle for his child.

He was able to provide me with Jennifer and Kristine`s person information.

INVESTIGATION: On 10/31/2022 at approximately 2101 hours, I was dispatched to the residence that is located at 6715 Hone St. New Port Richey, FL 34653, in reference to a burglary of a residence that delayed.

Upon arrival, I made contact with Melissa Donavin Davis, who provided me with the above listed statements.

Neither Melissa nor Donavin were able to provide me with any receipts for the items that were taken from the residence.

Melissa granted me remission to process the residence.

I took digital images of the entire residence using my agency issued mobile device. I later uploaded the digital images to Evidence.com for evidence.

I attempted to collect latent fingerprints from the residence. I was able to collect a latent fingerprint off the container that the stolen ashes were in. I later submitted the latent fingerprint to property and evidence as evidence at the district three office.

While processing the scene, it appeared the suspect(s) made force entry through the back entrance to the residence. I observed the inside portion of the door frame of the back door to the residence was broken where the door handle lock was located. There appeared to be pry marks on the door handle lock. There was also approximately a half an inch mark on the lock of the door has if someone attempted to pry open the door. The metal plate that is connected to the doorframe where the lock is normally, was also broken off.

It should be noted that I was unable to determine what tool was used to break the doorframe. I also did not observe any pieces of wood or other pieces of the door frame on the door inside the residence, including the metal plate that was on the doorframe.

Through a Google query, I found that the door frame would cost approximately $70 to replace.

I also observed that the gun case was open and laying on the bed in the master bedroom. The case`s locks were broken, causing it not being able to lock.

Inside the closet of the master bedroom, I observed that several drawers were open and items were scattered on the ground.

The necklace was located on a hanger that was located in the bedroom on the south side of the residence.

After processing the residence for evidence, I provided Melissa with a Victims Rights booklet that included the case number and my contact information. I also informed her that she would have to complete a stolen prescription

affidavit at the district three office.

I then conducted a neighborhood canvas. At the following residences, I made contact with the following individuals, who provided me with the following statements:

6721 Hone St. New Port Richey, FL 34653: Pamela Larson (727-845-8436), who informed me that she did not hear or see any suspicious activity. She also does not have any video surveillance at the residence.

6714 Hone St. New Port Richey, FL 34653: Keath Simons (727-235-2146), who informed me that he did not hear or see any suspicious activity. He does have video surveillance at the residence, but will provide the camera footage to the Sheriff's Office on a later date and time.

6708 Hone St. New Port Richey, FL 34653: the resident informed me that he did not hear or see any suspicious activity. He also does have any video surveillance at the residence, but will provide the camera footage to the Sheriff's Office on a later date and time.

6703 Hone St. New Port Richey, FL 34653: Nathan Hepner (727-565-9362), who informed me that he did not hear or see any suspicious activity. He also does not have any video surveillance at the residence.

Due to the surrounding circumstances of this case, and the amount or property that was taken from the residence, I am requesting this case to be sent to property crime.

A wants and warrants check on all parties met with negative results.

I took no further action.

ICR: 3 hours x $26 = $78

On 11/2/2022 at approximately 2003 hours, I was dispatched to 6715 Hone St New Port Richey, FL 34653 in reference to a supplement follow up.

Upon arrival, I made contact with Donavin Davis and Melissa Davis whom advised some of the things, which were reported stolen had returned.

Melissa advised at approximately 1750 hours, she was outside in her backyard and observed a bag on her porch. Melissa stated she recognized the bag to being her family member`s ashes, which had the social security card, and identification inside of the bag. Melissa pointed the area where the bag was located and they brought the bag inside of the residence.

Melissa stated she also observed some minor damage on her back fence, which was not there previously on the day their house was burglarized. I observed the bag to be closed and later discovered it still had the original zip tie, which was used to secure the remains. Inside the bag I observed a social security card and identification, which was previously reported stolen. Melissa pointed out there was hair which was lodged between the plastic bag and the zip tie. Melissa advised the hair did not belong to her, but to someone else. I asked as to who would steal a family members remains and Melissa advised there has been an ongoing issues between family members.

I took pictures of my observations of the above and later uploaded the images to Evidence.com.

I then walked out to the backyard and observed the fence. While looking at the fence, there was no clear indications of any damage, but there was a gap between two points of the fence. Melissa and Donavin both stated the fence did not have the gap prior to the incident which was reported. I observed the backyard to have tall grass and observed certain areas to be disturbed. It should be noted, Melissa has a dog and the areas which were disturbed had dog feces. I took pictures of the above observations and later uploaded the images to Evidence.com.

Later, Melissa advised shortly after deputies left the incident they heard a noise at the front door. Melissa stated they discovered the necklace which had been stolen from the residence hanging on the glass door`s door knob. I took pictures of the necklace with my agency phone and later uploaded the images of Evidence.com.

I then spoke with Melissa about taking the bag which included her family member`s remains, as well as the other stolen property for evidence. I further explained the process and statute of limitations, which Melissa understood. Melissa requested, I hold off on taking the property until she can make contact with her mother. I had Donavin place the

property within a brown paper evidence bag while they make their decision. Melissa stated she would notify me by tomorrow as what they would like to do with the property.

I later sent an email to Deputy J. Compton to update him in the case.

This concludes my involvement in this case.

No further action.

ICR: 1 x $26.00 = $26.00.

On 11/09/2022, at approximately 2113 hours, I made phone contact with Donavin Davis in reference to case number 22037961.

Donavin explained he suspects Kristine Davis, Jennifer Brophy, and Detective Sekeres were involved in a recent burglary which occurred at his home. Donavin continued to explain he had video footage he recorded while being interviewed by the Department of Children and Families. Donavin advised he wanted to provide the Sheriff's Office with the video recording for his case.

I provided Donavin a link to upload the video recording to Evidence.com

Donavin had no further questions and was cooperative throughout the phone conversation.

I took no further action.

ICR: 1 hour x $26.00 = $26.00
